

ATC's Operational Error Detection Program - 7-9 PM

Topics that are very important to a pilot include the "Operational Error Detection Program" or "Snitch Patch" and how it affects you the pilot in the "Center" environment. As human beings, we all make mistakes from time to time and it is healthy to admit the mistake and learn from it.

Directions: From Colonial Drive turn south on Rickenbacker Dr. Continue past Fairgreen St to the end of Rickenbacker Dr. and into the parking lot. Park in any available spot. Walk east to the Airport Administration Building.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
